

## Player Movement Process

This process is aimed at both players wanting to move teams and teams wanting to recruit another player from another Blitz team

### Process

<p>1. Player requesting to move teams</p>	<ol style="list-style-type: none"><li>1. Players wishing to move up or down should make their interests known to their captains, chairman or any relevant committee member. (They can also make their interests known in the player survey. )</li><li>2. These requests will be shared with all committee members for transparency.</li><li>3. Players will be made aware beforehand that movements are at the captain's discretion based on team needs and space.</li><li>4. Where possible, teams should consider existing club players over players from outside the club first. However again this is based on team needs and space.</li></ol>
<p>2. Captains recruiting a player</p>	<ol style="list-style-type: none"><li>1. Captains must approach other team captains before approaching any player.</li><li>2. This is out of courtesy and so captains are aware they could lose a player and so they have time to replace said player.</li><li>3. All approaches should be done in a timely manner and not just before the beginning of the season. As this potentially leaves the other team short with weeks before the season begins.</li><li>4. The reason for the above is that we are a club and it is out of courtesy to the other team.</li><li>5. Ultimately the decision is always down to the player on whether they want to move up or down.</li></ol>
<p>3. Timelines</p>	<ol style="list-style-type: none"><li>1. All players movements must be finalised before the start of the season (end of Feb)</li><li>2. No player can move teams during the middle of the season, unless agreed unanimously to by the the committee.</li></ol>
